DO NOW

1. Given the parabola to the right answer the following.
a) Is the parabola concave up ("smiling") or concave down ("frowning")?
b) Identify the roots.
c) Identify the $y$-intercept.
d) Does the parabola have a maximum or minimum point?
e) Identify the vertex.

f) For which interval is quadratic function increasing?
g) For which interval is quadratic function decreasing?

## AIM: GRAPHING QUADRATIC EQUATIONS

- The standard form of a quadratic equation (graph) is $\qquad$ .
- The graph of a quadratic equation is called a $\qquad$ .
- When the a-value is positive, the parabola opens $\qquad$ and has a $\qquad$ TP.
- When the a-value is negative, the parabola opens $\qquad$ and has a $\qquad$ TP.
- The $\qquad$ - value is the y-intercept.
- When an interval is given, there are $\qquad$ arrows.
- There are 3 ways to find the roots:

1) $\qquad$
2) $\qquad$
3) $\qquad$
2. Graph $f(x)=x^{2}-4 x-5$

| $\mathbf{x}$ | $\mathbf{y}$ |
| :---: | :---: |
|  |  |
|  |  |
|  |  |
|  |  |
|  |  |
|  |  |
|  |  |

a) $y$-intercept $\qquad$
b) Turning Point $\qquad$
c) Maximum or Minimum T.P $\qquad$
d) x-intercepts $\qquad$

e) State the domain set builder notation $\qquad$
f) State the range in set builder notation $\qquad$
g) For which interval is quadratic function increasing? $\qquad$
h) For which interval is quadratic function decreasing? $\qquad$

## GRAPHING CALCULATOR STEPS:

1) Press " $y=$ " key and type in equation
2) Press " 2 " graph (table)
3) Find turning point in the middle of table and copy at least 3 points above and 3 points below.
4) Plot the points, connect the curve, and label your graph.
5) Press "zoom" 6 or "graph" to check parabola

## Partner Practice:

3. Given the parabola to the right answer the following.
a) Is the parabola concave up or concave down?
b) Identify the zeros of a function.
c) Identify the $y$-intercept.
d) Does the parabola have a maximum or minimum point?
e) Identify the vertex.
f) For which interval is quadratic function increasing?
g) For which interval is quadratic function decreasing?

4. Graph $g(x)=-2 x^{2}-4 x ;\{-3 \leq x \leq 1\}$
a) $y$-intercept $\qquad$
b) Vertex $\qquad$
c) Maximum or Minimum T.P $\qquad$
d) Roots $\qquad$

5. Graph $h(x)=x^{2}-4 x+4 ;\{-1 \leq x \leq 5\}$

| $\mathbf{x}$ | $\mathbf{y}$ |
| :---: | :---: |
|  |  |
|  |  |
|  |  |
|  |  |
|  |  |
|  |  |
|  |  |

a) $y$-intercept
b) Vertex $\qquad$
c) Maximum or Minimum T.P
d) x-intercepts $\qquad$

Name
Unit 9
Lesson 1
HW\# $\qquad$

1. Graph the function $g(x)=-x^{2}+10 x-25$
a) Identify the Vertex.
b) Describe the turning point as a Maximum or Minimum point.
c) Identify the Roots.
d) Identify the y-intercept

| $\boldsymbol{x}$ | $\boldsymbol{y}$ |
| :--- | :--- |
|  |  |
|  |  |
|  |  |
|  |  |
|  |  |
|  |  |
|  |  |

e) For which interval is quadratic function increasing?
f) For which interval is quadratic function decreasing?
2. Graph the function $h(x)=x^{2}+2 x+1$
a) Identify the Vertex.
b) Describe the turning point as a Maximum or Minimum point.
c) Identify the Roots.
d) Identify the y-intercept

| $\boldsymbol{x}$ | $\boldsymbol{y}$ |
| :---: | :---: |
|  |  |
|  |  |
|  |  |
|  |  |
|  |  |
|  |  |
|  |  |

e) For which interval is quadratic function increasing?
f) For which interval is quadratic function decreasing?
